

Jason B. Willis is the Mine Restoration Project Manager for Trout Unlimited based in Salida, Colorado. He has received a B.S. in Plastics Engineering Technology from Penn State Behrend and an M.S. in Civil and Environmental Engineering from the University of Pittsburgh. Prior to coming to TU, Jason worked for 4 years at various engineering firms in the disciplines of structural, geotechnical, environmental, and civil engineering. He began working as a contractor for TU in 2011 for nine months on the Kerber Creek Restoration project in Colorado. Jason was brought on full-time to Trout Unlimited in October 2012, and focuses on restoration of mining impacted areas, in-stream enhancement, soil and water chemistry, project management and oversight, as well as stream channel morphology and river dynamics. He currently holds an Engineer Intern certification with the State of Colorado. He can be reached at jwillis@tu.org.
